Agenda

Topics

- jQuery History
- The JQuery Object
- Manipulating the DOM
- jQuery Events
- Single Page Apps
- jQuery with AJAX
- jQuery Plugins

Hands On

- Ski Resort List
- Lift Status
- Snowtooth SPA

jQuery
write less, do more.

What We Will Build

Ski Day Counter

Add Resort [_____] Add

- Kirkwood
- Squaw Valley
- Alpine Meadows
- Heavenly
- Northstar
- Mount Rose
- Sierra at Tahoe
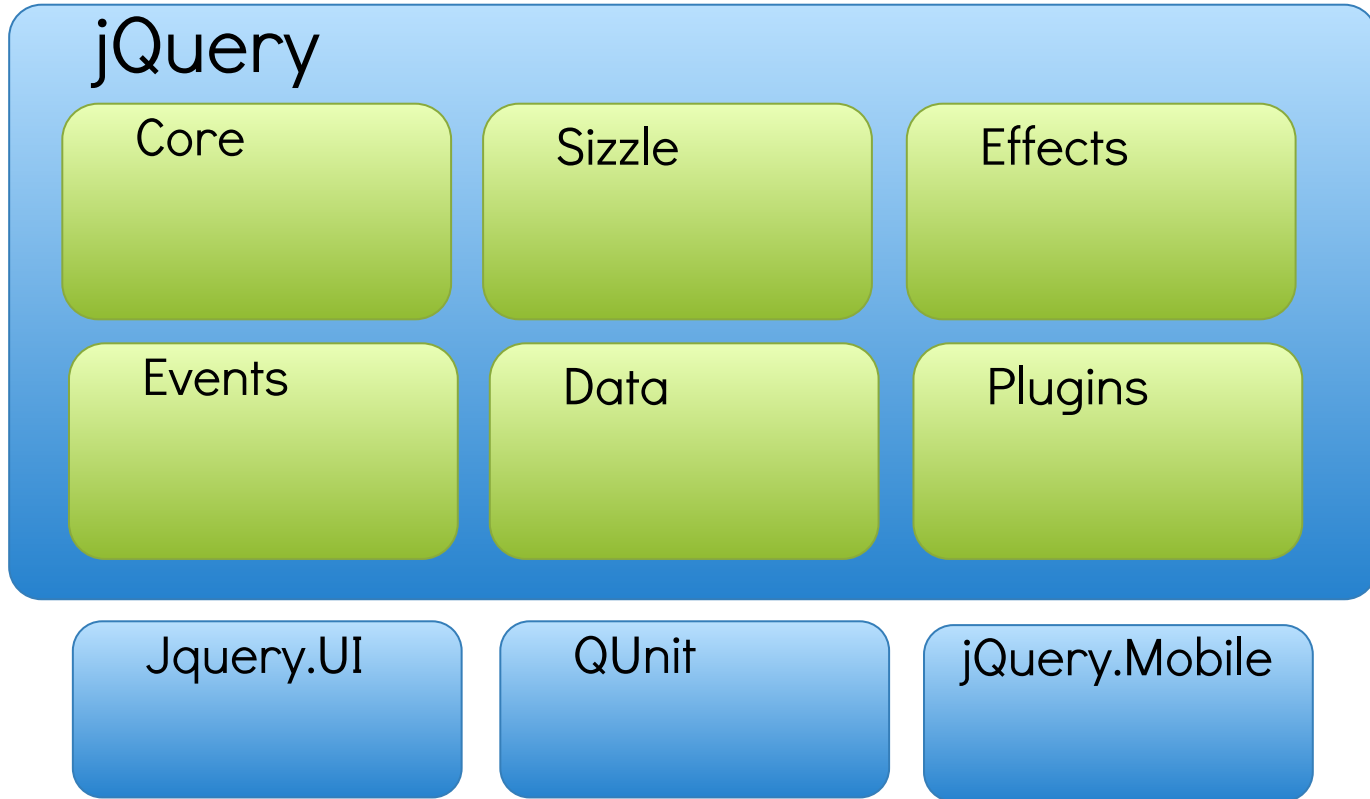

jQuery
write less, do more.

What is jQuery?

jQuery is a multi-browser JavaScript library designed to simplify the client side scripting of HTML.

- Released in 2006, NYC
- Used by over 65% of the 10,000 most visited websites, most popular library in use today
- Free, open-source

jQuery
write less, do more.

jQuery Framework

Adding jQuery to your page

jQuery $(document)[0]

The JavaScript Object
The jQuery Object
The jQuery() function

Getting the Files

- Course files are hosted on GitHub.
- Files

www.github.com/moonhighway/jquery-accelerated

`$ git clone https://github.com/moonhighway/jquery-accelerated.git`

Thanks for Attending
